

3 Headed Bombing Pictures of Atom Bomb

BAITMORE, (AP)—Three men arrested by F.B.I. agents on charges of publishing photographs of the atomic bomb were to be taken before a United States commissioner here Friday for arraignment.

Arrests of the three, two former servicemen and a reserve army captain, was announced in Washington by the justice department shortly after formal charges against them were filed with the federal commissioner here.

The three were accused of attempting to sell the photographs to the Baltimore News Post and of distributing copies elsewhere. An F.B.I. official in Washington told a reporter that the attempted sale of the photographs to a newspaper and the distribution otherwise legally constituted publication.

Paul Hafford, P.B.I. agent here, identified the men as: George Wallace Brown, 32, 21st St., Md., a former private in the U.S. Army, former member of the Baltimore News Post; and two other men, one of whom was a former private in the U.S. Army, former member of the Baltimore News Post.

A justice department statement in Washington said pictures of the bomb were obtained by one of the men while he and a group of other servicemen were serving with a bomber squadron in the Pacific during 1945.

Workers at Soda Ash Plant End 'Biggest Little Strike'

AMHERSTBURG, (CP)—End of Canada's "biggest little strike" came Friday with decisions by the United Automobile Workers (C.I.O.) to return to work at the Brunner Mond company here.

The strike, which started July 15, ended after a week of household articles across Canada, with a 2-1 vote by the members after they were addressed by a local union official and a representative of the union.

The strike halted production in the soda ash plant, which produces soda ash, essential to manufacturing.

Strong Opposition Voiced To Boost in Freight Rates

Growing opposition to the application of Canadian railways for a general 30 percent increase in freight rates in Canada was sweeping across the Dominion Friday with protests coming from provincial officials, business leaders, farm groups, boards of trade and others.

One of the applications was received by the Ontario board of trade, which is the largest in the western provinces. It was emphatically opposed to the increase, saying that it would be a "disastrous blow" to the economy of the province.

Windsors May Visit Ranch in Alberta

PARIS, (AP)—The Duke and Duchess of Windsor left Paris Friday on route to a ranch in Alberta, where they will take the channel boat to Dover for a vacation in Britain.

After the first visit of the duchess to Britain since their marriage nine years ago, the couple may proceed to the United States and Canada, where the duke owns a ranch in Alberta, friends said.

The duke and duchess were seen at the airport in Paris, where they were met by a group of British officials. They were then taken to a hotel in Paris, where they will stay for a few days before leaving for Alberta.

Second Fugitive Caught by Police

ALBANY, (AP)—A man who had escaped from the city police court after being arrested by police at Moose Jaw Thursday, was caught by police here Friday.

The man, who was identified as a fugitive from the city police court, was caught by police here Friday. He was then taken to the city police court, where he will be arraigned.

Republicans Score Victory in Alaska

JUNEAU, Alaska, (AP)—In the election held here Thursday, the Republicans scored a victory over the Democrats in the state legislature.

The Republicans scored a victory over the Democrats in the state legislature. The Democrats, who had been in power for several years, were defeated in the election.

Claims Gold Found in "Death Valley"

GOLD has been discovered in mysterious Nahanni valley, according to word from the north Friday. The remote area, which Indians claim, and which they say claims the lives of anyone venturing into the country, has been prospected by Frank M. W. Henderson, of Calgary and Vancouver.

A veteran prospector, he reached Fort St. John this week with 14 ounces of rough gold, which he said was washed in his frying pan during a summer on the Nahanni river. He is pictured here showing his claims to George Murray of Fort St. John. But Henderson says he is not concerned about the safety of his friend, John Patterson, whom he met in the Nahanni valley. He is seeking to locate Patterson—Photograph by Schubert.

Flames Trap Victim In Worst-End Dwelling

Trapped in a blaze which according to firemen, "made a flaming furnace of her home," Mrs. Ainsley Parsons, about 50, 10530 116 st., was burned to death at 9:40 a.m. Friday.

Parsons' body was found by firemen and police lying across the bed in the northeast corner of the one-story dwelling. Her clothing was burned off, only her shoes remaining.

Parsons was the only one in the home at the time, she died. Her husband was not home at the time. She was found by firemen and police lying across the bed in the northeast corner of the one-story dwelling.

See Confirmation Relief Debt Cuts

By John Reid
OTTAWA.—The broad hint thrown out by Saskatchewan's Minister of Finance, Walter Tuckey, speaking in the House of Commons, that the province's government might forgo a substantial amount of the Dominion government's relief debt, finds at least limited confirmation in informed Ottawa circles.

Finance department officials recall that Hon. J. L. Riley, in his recent speech June 27, touched upon the special position of both the province and the Dominion government in connection with the proposed new Dominion-provincial tax agreement. He said:

"In some cases special arrangements to take care of special circumstances will have to be made. For instance, it is understood the western provinces may wish to sign a new tax agreement until a collateral agreement has been reached in regard to refunding their outstanding treasury bill indebtedness to the Dominion."

This treasury bill indebtedness involves the same refunding of the debts incurred for relief purposes during the depression.

Even though the Province of Saskatchewan is in Ottawa discussing a separate agreement with the Dominion government, the Dominion and Premier Gurney of Manitoba is expected to enter into a similar connection. It is logical to conclude, according to officials, that the treasury bill indebtedness will come into these negotiations.

Finance department spokesmen had no comment to make on the report the Dominion may be willing to forgo 50 percent of the actual debt type of relief debts, while excluding those debts incurred for public works for which the provinces presumably have something to offer.

It is pointed out the Dominion is negotiating with individual provinces, and was hardly likely to reveal its hand at this stage.

Even though the Province of Saskatchewan is at its hottest and the government may have to face charges of "election promises," in connection with the Treasury bill, it is clear that it is unlikely the Dominion's position on relief debts will be made public until separate agreements have been concluded with the provinces in question.

PORTAGE LA PRAIRIE, (CP).—Walter Tuckey, member of parliament for Rosthern, Sask., and leader of the Saskatchewan Liberal party, said here he had information the Dominion government intended to cancel "a very substantial part" of the relief debt owing by the province provinces to the federal government.

The debts were incurred in the drought and depression years, when the three provinces had to borrow for relief expenditures more than \$121,000,000. Manitoba borrowed \$27,754,432; Saskatchewan \$60,451,832; Alberta \$25,897,200.

Says Unions Here Haven't 'Grown Up'
VANCOUVER, (CP).—Mr. Godfrey, British's permanent secretary for the ministry of labor during the war, said the director general of British's manpower and labor service, credited his country's trade union system for freedom from labor friction in an interview Wednesday.

Noting Britain had experienced no major strikes for some time, he credited the trade union system and added:

"I don't say England's trade unions are superior to Canada's. They are more integrated, that's all. Canada is a young country. It will take time for her unions to grow up. A strong labor-management negotiating system only comes with experience."

11 Poles Return To Own Country
TORONTO, (CP).—Eleven Poles who escaped from Nazi oppression and found their way to Canadian war planes left here Wednesday on the first lap of the Journey home.

Following their escape from Poland during the German occupation they made their way to England, from whence they were sent at the request of the Canadian government to work in the De Havilland aircraft factory here.

Some plan to return here with their families if possible because they think "Canada is the future country in the world."

Old-age pensioners at Newport, Eng., each got a gift of a Christmas pudding from South Africa at the last holidays.

Scores of "Blanks" in Argentina Unhappy at Sainly-Name Law

MONTVIDEO, Uruguay, (CPN).—Harold Mickey is a hard leader from Winston-Salem, N.C. He works the midnight to 4:30 a.m. shift in a Bureau Aires night spot called the Premier.

Mickey got the news one night between a tango and a samba; his wife had terms.

Patriotic thought it was great, and the band played "Impele Bells."

The next day Mickey marched down to the government vital statistics bureau to register his sons.

He would call them Glen, after his old friend Glen Haley, American geologist, and Franklin, after the late Franklin Delano Roosevelt.

"This," said the Argentine official, "is impossible. All children born in Argentina must be named for saints, such as Francisco, Domingo, Angelica, Laureano, Pedro, Maria, Jean, Guillermo. There are many, Here is the list."

Mickey looked over the list, but found they were all Spanish. His insistence on Glen and Franklin nettled nothing.

Angrily, he registered them as "blank one Mickey" and "blank two Mickey." He said he would appeal to more lofty officials.

From the top brass he learned that he was not alone in his discontent. Some 3,000 Argentines and Britons were having the same trouble. The Britons were united to call their youngsters Winston, Randolph, Clement, Wellington or

any of the more suitable British names.

So Mickey decided to file a mass-action suit to force vital statistics bureau to let him and 2,000 others name their children what they darned well pleased.

The action was well presented and blooded. The law was attacked as frivolous, irrelevant, immaterial and unfair to parenthood.

Convinced, the judge ruled in favor of Mickey. Thousands of parents of nameless children were jubilant.

But vital statistics refused to budge. Officials said that they wanted a supreme court decision. They were not taking the word of some small fry judge. Supreme court action was very slow in Argentina.

"And so Glen and Franklin are still named Blank," said Mickey. "Thousands of others are named Blank."

"Before we get a supreme court decision, they will be grown, married and have their own children. His insistence on Glen and Franklin has named generations of Blanks."

"And so Glen and Franklin are still named Blank," said Mickey. "Thousands of others are named Blank."

See Little Hope Averting Strike

PORT ARTHUR, (CP).—Possibility of averting a strike of 6,000 British workers in the Thunder Bay area Oct. 12 appeared slim Friday after refusal of the Lumber and Saw Mill Workers' union, United Brotherhood of Carpenters and Joiners (AFL) to accept terms of a contract offered by Labor Minister David of Ontario.

Thursday the Thunder Bay Timber Operators' association, with whom the union has been negotiating, urged the minister asking for a settlement of wages and working conditions dispute.

Mr. Daley notified officials of both organizations a conciliator would be named. He asked that no strike action be taken pending arrival of the official.

In a wire to the minister, later, Jack Quinn, president of Local 278 of the union, said the union had accepted the government proposal and "we are waiting for the official."

"In Timmins, Ont., about 38 percent of the bush workers have been the Saturday strike deadline by the officials here said."

Metrolists in Uruguay have started a campaign to reduce gasoline prices.

British Line Buys Navy Prince Ships

MONTREAL, (CP).—Two of Canada's wartime auxiliary naval craft with service in American and European waters have been sold to War Assets corporation, H.M.C.S. Prince Robert and H.M.C.S. Prince David were purchased by Robert Charlton Steam Shipping Company, Limited, of London, England.

These ships will revert to mercantile status but not in the runs for which they were originally designed. The British Columbia-Alaska highway route, presently moored at steam to a British shipyard for the Vancouver job.

H.M.C.S. Prince Henry previously was purchased by the British ministry of transport.

Former Constables Freud of Charges

CALGARY, (CP).—Charges of theft of a bottle of whisky, laid against Roy Bromley and Wallace Brown, former city police constables, were dismissed by Magistrate Pugh in city police court Thursday.

Bromley, who remained from the force several years ago, and Brown, who was dismissed recently, were charged as the result of a complaint by Lee Roy, that two men representing themselves as police officers had stolen a bottle of whisky from him in Chinatown early on Sept. 16.

Mr. Justice Davis For Moscow Post?

OTTAWA, (CP).—Announcement of several changes in the Canadian diplomatic corps will be made shortly, it is learned.

There has been speculation that Mr. Justice Davis, recently retired Canadian high commissioner to Australia, may go to Moscow to replace Dana Wilgerson.

Mexico City to allow Pugh S. Keeney, Canada's minister there, to return to Ottawa. It is also possible Mr. Wilgerson himself might come to Ottawa.

Another development is a report from Brussels that W. F. A. Tugan, Canadian ambassador to Belgium who returned to Canada recently for health reasons, probably will retire shortly.

Another change may be made in the near future.

Housing League Heads Face Trial

OTTAWA, (CP).—After a preliminary hearing last week, Franklin E. Hurst, head of the Veterans' Housing League, and George M. Brokensie, league counsel, Wednesday were committed for trial on a charge of forcibly seizing and detaining premises.

The charge was laid as result of the league seizing H.M.C.S. Carleton here. During the last month the league has housed about 200 persons in government buildings.

Hurst, was released on \$100 bail and Brokensie on \$200. They will go on trial before a jury at the next session.

Chungking, Maj.-Gen. Victor Odum, Canadian ambassador, was reported to have landed at San Francisco on his way home and he may take another appointment.

Critiques Building Of Ottawa Stables

OTTAWA, (CP).—Controller G. W. Crookin Thursday took Ottawa's reporters on an inspection tour of stables being built by Maj.-Gen. Churchill Munn, vice-chief of the general staff, and commented that when a top ranking officer could get building materials to house horses and a discharged back private could not get a home there was something wrong.

The stables, nearing completion at Rockcliffe, suburban residential district, provide accommodation for 10 horses.

SOLDIERS EXECUTED

ATHENS, (AP).—Dispatches from Thessalonica said Thursday that five soldiers who had been sentenced to death by a military court on charges of subversive activity were executed Wednesday by a firing squad. The group lived the republic.

Schacht Said More Despised By Germans Than by Allies

NEW YORK, (UPI)—"Schacht is a lucky trap."
That comment, scattered among many wartime notes in Stockholm, came from a refugee German banker who had known Hitler's finance minister intimately.
His opinion, with others from German sources, may shed more light on the present German situation than the machine gun-bank head being tried in German courts following his acquittal at Nuremberg.
For the fate of Dr. Hjalmar Schacht now appears to be entirely in the hands of the Germans. The Americans apparently have waived their hands of him.
My Stockholm informant, once an important Hamburg banker, told me late in 1944.

Chain Disfavor Rise
"Don't be fooled by this talk that Schacht has fallen into disfavour with the Nazis. That's just another trick, even though he has not, at the moment, held his old popularity with Hitler."

"It's only a build-up to fit Schacht for postwar negotiations. Remember how he helped soften Germany's defeat the last time? Again he will try to do it. If you give him the chance."

Another paragraph in my notes from the Swedish listening post for Germany quotes Dr. Max Immanuel, once a reichsbank official:

Wives of Nazi Criminals Visit Prison

**2 Ships Returning
To West Indies Run**
MONTREAL, (CP)—The sister ships Lady Nelson and Lady Rodney only two of Canada's famed "Lacy" liners to be sent to the West Indies to ply the Canada-West Indies trade route in completing their sailings for the department of national defence. It was announced here Friday by R. C. Vaughan, chairman and president of Canadian National Steamships.

Both ships are now engaged in repatriation service. The Lady Nelson, disarmed, as a hospital ship, will return to the company this week. The Lady Rodney will be in service in November. Repatriation to handle passengers and freight traffic will take about four months.

"Schacht, the most untrustworthy German of them all."

Unwanted, but Indispensable
There is also a quotation from Hermann Goering, which was passed along to me by a British agent: "Schacht—unwanted, unindispensable."

An informer for Allied intelligence agents came in one day with the story that Schacht's imprisonment in a concentration camp was not all it seemed.

His angle was that Schacht had deliberately submitted to such confinement as a guise to fool the Allies and give credence to his alleged aversion with the Nazis.

Thus, it was reported, he could emerge as a victim of Nazi brutality, ready to assist the Allies.

Distance in Germany
An exiled German "trade union official," once told me no German would ever trust Schacht no matter what happened.

"He has too much ambition," he said. "He will try when the war is over to satisfy that ambition. A wehrmacht deserter told me how soldiers often blamed Schacht for many of their troubles. From Goering down to the foot-soldier, he was 'unloved'."

Such a background of feeling among anti-Nazi Germans explains why Schacht may not get off as easily with his own people as he did with the Allied war criminal court.

RECORD APPLE SHIPMENT
KELOWNA, (CP)—Shipping officials announced Thursday that a new record has been established in the export of fruit to Canadian and United States ports. More than 100 cars of apples have rolled out of the Okanagan Valley as far east as Ontario and Quebec this season.

31 FEARED KILLED
SICHUAN, China, (AP)—A search plane has located the burned wreckage of a Chinese National Airways transport plane in the wild Lolo country, 20 miles southwest of Sichang. It was believed the American pilot and the 31 Chinese aboard may have perished.

**Bracken Critical
Of High Taxation**
TORONTO, (CP)—John Bracken, Progressive Conservative leader, Thursday criticized government waste and high taxation and charged that the interest and bill on what the federal government has borrowed "now approaches the total expenditures of pre-war days."

"If the present trend is not arrested, we will soon reach the point where all that we can do with our money is to earn it. Turn it over to the government and then hope that the government will maintain us," Mr. Bracken said in an address to the Progressive Conservative Businessmen's club of Toronto.

The Progressive Conservative leader charged that "the government cannot get away from its war-time mentality. The government thinks it can spend the people's money better than they can spend it themselves. It can't discard war-time extravagance."

He referred particularly to the Wartime Information Service costing between \$600,000 and \$700,000 a year, and the National Film board, with nearly 1,000 persons on the payroll, against nearly \$2,000,000 a year. In addition, the government was spending more than \$7,000,000 a year on advertising and publicity, he said.

He referred also to "materials at military camp" or in the hands of War Assets authority to house, to clothe, to supply food and provide comforts for thousands of those who now are without these necessities.

"Canada must make a choice between 'rational progress' and 'revolutionary change,' he said. The Progressive Conservative party stood for preservation of the independence of private enterprise, a "fair deal" to farmers, and "the highest social security standard possible—short of taxing people to the point where enterprise is discouraged, absenteeism increased, production lessened and everyone made poorer."

**Powerful Drug
Found by Russia**
WASHINGTON, (NANA)—A powerful twin of streptomycin has just been announced from Russia to the American Association for the Advancement of Science here.

This proven inhibitor of the growth of half a dozen disease-producing organisms, some of them resistant to both streptomycin and penicillin, was discovered, according to the report, by Dr. G. P. Gause of the Moscow Institute of Tropical Medicine.

It resulted, according to Dr. Gause's report, from a systematic examination of the properties of a large number of microorganisms found in the black, or chernozem, soil of central Russia. It is effective in extremely minute amounts against staphylococci, pneumococci and several forms of germ responsible for diarrhea. It promises to prove of particular value, according to the report just published in the official organ of the American association, against the germ of relapsing fever.

The organism itself is one of the bacteria, rather than a mould such as is the source of penicillin. The germ inhibitor is secreted when colonies of the bacteria are grown in the laboratory under certain fixed conditions of nutrient and temperature. Apparently it has very little poisonous effect on man or any of the higher animals. It works with great rapidity. Mice infected with relapsing fever subsided almost within the first 24 hours of treatment.

Unlike streptomycin, which kills disease germs according to Dr. Gause this new medicine only prevents their multiplication. In this respect its action is similar to that of the sulfa drugs. The end result is the same, however, since bacteria which do not multiply soon perish.

**Ships Will Move
Grain at Lakehead**
MONTREAL, (CP)—Shipping circles reported Thursday that all water movement of grain from lakehead ports to Montreal will start early next week.

These circles said some lake shipping has been diverted from road carrying to the Montreal line. The movement will be over the all-water route because of the short supply of freight cars to move grain from Georgian Bay ports to the St. Lawrence.

Some 20 ocean vessels are at Montreal harbor awaiting grain.

Dislike High Tax To Help Enemies

WASHINGTON, (CP)—Hugh Dalton, British chancellor of the exchequer, and John Snyder, treasury secretary, had a quiet talk here the other day and, according to most reliable report, did a little weeping on each other's shoulders.

Their mutual pain was something like this:
"A few months ago we were taxing the parts of our people and going on short rations in order to kill German, Japs and Italians."

"Now we are taxing the parts of our people and going on short rations in order to keep German, Japs and Italians alive and healthy."

The report does not indicate which minister first saw this aspect of the fatality of world wars.

The rocky Missouri who came out of the obscurity of a small town bank to the president's home state to take one of the highest cabinet posts, is more or less feeling his way along the paths of international dealings.

High Dalton, tall, urbane and genial veteran of international politics, has few illusions left but the thought of his unpleasant duty of bleeding the taxpayers to help former enemies hurt him.

Neither is thought to have suggested the ex-enemy people should be left to pay the price of their folly in starvation and economic dissolution.

But they are said to have agreed on an idea which, however, it is unlikely they will push or which would be successful if they did push it.

They agreed it would be no more than just if the neutral countries which offered only minor annoyances from the war and made money from both sides, kicked in a reasonable amount to help rehabilitate the vanquished.

Their meeting was incidental to the meeting here of the cabinet boards of governors of the international bank of reconstruction and development, and the international monetary fund.

Mr. Snyder was chairman and Mr. Dalton said he was a good one. The meeting ended five days and time. The board elected Mr. Dalton chairman for the ensuing year.

One-seventh of all factories started in Mexico since 1940 make chemicals.

Teachers' Requests Claimed Too Low

SKATKOOTON, (CP)—Canadian teachers were "yukers" in asking for a \$15,000 minimum salary, Ethel Coupland of Skatkaton, president of the Canadian Teachers' Federation, told teachers of the Skatkaton public school superintendency at their annual convention here Thursday.

The C.T.F. convention this year had agreed on salary standards, advocating a \$15,000 minimum for properly certificated teachers, she said, but United States teacher organizations were campaigning for higher salaries. They recommended that \$4,000 or \$5,000 a year should be an average salary with persons in top administrative positions getting up to \$10,000.

**Sets Ten Years
As Danger Period**
VANCOUVER, (CP)—Ch Thomas Telson, former secretary to Generalissimo Chiang Kai-shek and founder-director of the World Citizenship movement, believes the world has just 10 years to unite into a peaceful global state or else face the consequences of an atomic war.

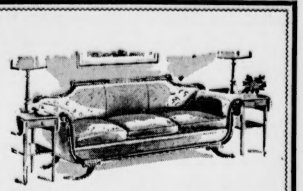

Ten years would be needed by Russia to rebuild herself and get production rolling, he said in an address to a public meeting here.

"I'm not saying Russia wants war. In this present day of unrest and agitation, the Russians might get jittery and start pressing buttons."

"Or we, unsure of what was coming, might ourselves press the button to throw the world again into conflict."

Col. Telson termed nationalism the greatest foe of internationalism.

**Bank Is Held Up
For Four Time**
MONTREAL, (CP)—It was just another holding up of the Oulivier branch of Banque Paribas in Canada, Thursday when two men walked in, pointed guns at the teller and snatched up approximately \$2,000 cash. It was the fourth time that branch had been held up in four years.

High Dalton, tall, urbane and genial veteran of international politics, has few illusions left but the thought of his unpleasant duty of bleeding the taxpayers to help former enemies hurt him.

Fritsche Expects To Be Sentenced

MUENSTER, (AP)—Hans Fritsche, his home watched by German police, said Friday he knew he would be sentenced by a de-nazification court but he did not fear the verdict.

It goes without saying that after 18 years in prison, he did not look forward to new imprisonment, but it was not his intention to be sentenced to a de-nazification court but he did not fear the verdict.

"But I am of the opinion that the international tribunal must submit evidence to German law," he added.

Fritsche, industrialist Hjalmar

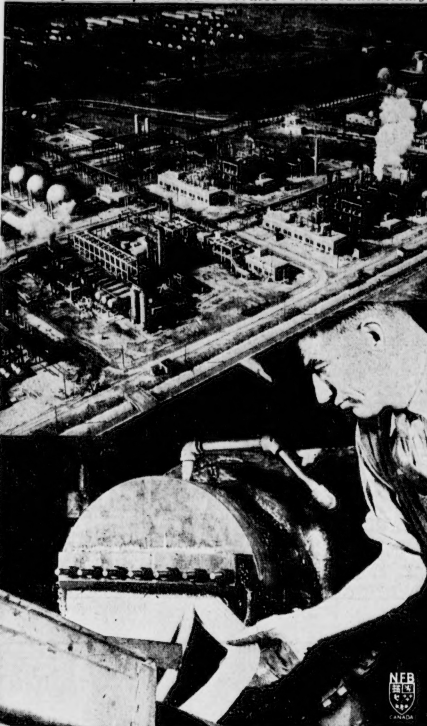

Schacht and diplomat Franz von Papen were acquitted by the tribunal here Oct. 1 when it convicted 19 other high Nazis of war crimes. Von Papen still is in the Palace of Justice jail. Schacht went to Backnang, near Stuttgart, and was arrested by German police for de-nazification proceedings.

In a de-nazification court, said Fritsche, "my defence will be not only a defence but also an indictment. This indictment will be directed against Hitler, Goebbels, Himmler and the former Reich press chief, Dr. Otto Dietrich. Dietrich is still alive and can answer me."

Dietrich is held in an internment camp as a former A.S. general.

United States firms will supply machinery for a series of alcohol distilleries to be installed by Uruguay in various farm regions.

Polymer Corporation Celebrates Third Anniversary

Polymer Corporation Limited, of Sarnia, Ont., Canada's Crown Company for the making of synthetic rubber, enters its fourth year of operation this month with production sights set on 110,000,000 pounds—an increase of 11,000,000 pounds over the yield for the past twelve months. The \$50,000,000

plant, with its Barton spheres, towers and pipelines built on 185 acres of what was once an Indian reservation, will produce more and still better types of buna-S, the all-purpose rubber used for fire casings, and of butyl to meet increasing demands of processors at home and abroad and will keep

Canada independent of far-away sources of a vital raw material. Buna, strands of built and in making inner tubes of superior wearing quality, are examined by H. Beaton, a Polymer Inspector, as they emerge through the extruder which serves as a strainer to remove foreign matter, and completes the drying process.

Human Carriers Blamed for Polio

NEW YORK, (AP)—Polio virus, the invisibly small agent that causes infantile paralysis, apparently was spread everywhere in the epidemic waves of this year's fatal outbreak of the disease in the United States.

Before the end of September the virus had reached 1,800 people and only a little more than 500 to go to make this year, the second outbreak in the country's recorded history.

Canada also had a severe outbreak of the disease last year.

There is evidence that the virus this year was carried by the families and friends of the patients, and by insects and in sewage and occasionally in food. This spread of virus is not really new in polio epidemics, but it is a culmination of years of work to discover how it spread.

The secret of the spread still escapes physicians.

Suspicion just now points first at human beings as the most dangerous carriers. That is, polio virus, spread by this evidence, probably spreads from person to person. It is a contagion.

The virus has been found in sewage in numerous places. Charleston, S.C., New York city, Detroit, and Chicago have found it.

The polio agent lives only a little more than a day after it enters sewage. This does not rule out the possibility of getting polio from sewage contamination, or from garbage, or swimming pools and beaches where there is sewage contamination. But the chances look poor for contaminated sewage being the main cause of polio epidemics.

Flies have been found to carry polio virus and other insects are suspected. But again the evidence points away from flies as prime causes of polio. The virus does not appear to breed in the flies and dies in a day or so.

The only breeding place for the infantile paralysis virus at present seems to be the human body. This is an added reason why the medical profession is working on the human carrier angle.

Isley Sees Budget Close to Balancing

PORTLAND, LA., (AP)—Finance Minister Isley told a Liberal committee on Thursday that the federal 1946 budget deficit of \$300,000,000 may turn into a "near-surplus" by the end of the current fiscal year.

Speaking in support of Mr. Isley said the government would at least come "very close" to achieving a balanced budget.

Three Fires Cause \$500,000 Damage

TOLENTON, (CP)—Canada's fire prevention was assumed an ironic twist as three major blazes causing more than half a million dollars damage reared Thursday while meetings were held across the country on how to prevent such carnage.

The three fires, costly examples of the tragedy behind fire prevention work programs, took their toll in Charleston, Ottawa and Sudbury. Two destroyed buildings were left in the wake of one of the worst fires in the history of Prince Edward Island which reared unchecked through Charlottetown's waterfront. No one was injured but damage has been estimated at \$300,000.

An explosion involving a batch of chemicals and other flammable ingredients was believed to have set off the Ottawa blaze while which swept through a three-story cosmetics manufacturing building. Four firemen were injured and damage estimated at \$150,000.

At Sudbury "the which would end a large merchant shop was still smoldering with flames already estimated at more than \$300,000.

A. F. U. Won't Join World Labor Body

CHICAGO, (AP)—President William Green of the American Federation of Labor Thursday turned down a British bid to cooperate with the World Federation of Trade Unions, a group including the C.I.O. in its membership, but tagged by Mr. Green as Communist-dominated.

Mr. Green told the A.F.L. convention the British labor movement's position was "contradictory" because it co-operated with Russia in the W.F.T.U. yet refused to accept the Communist party in the British labor party.

The A.F.L. leader spoke in reply to a speech delivered to the convention by Thomas O'Brien, a fraternalistic speaker representing the British Trade Union congress and a member of parliament. Mr. O'Brien had asked the A.F.L. regardless of whether it agreed with W.F.T.U. policies, to co-operate in the interest of the unified world-wide trade unionism.

"We know that you can't make a decision in the W.F.T.U. without first ascertaining what the dictator in Moscow shall say about it," Mr. Green shouted to convention applause. Mr. O'Brien interjected similarly from the convention platform.

Mr. Secretary Patterson, in an address prepared for the afternoon session, disclosed that a grudge match, with a range "far greater than the German language rockets" is a "probability in a matter of months."

The war secretary said he was convinced that eventually the approval of the doctrine of free speech will greatly minimize the chances of war.

"No foreign power, no combination of powers, will go to war with the United States or will follow policies that involve the risk of war with us. If they look us up and conclude that they cannot succeed in a fight with us are not good," Mr. Patterson declared.

Lethbridge Sets Building Record

LETHBRIDGE, (CP)—Possibility of building permit figures exceeding \$2,000,000 this year was set Thursday by civic officials as Lethbridge's record-breaking building boom showed signs of continuing unabated.

Already this year permits have

been issued to the value of \$1,983,000. The previous high of \$1,600,550 was set during all of 1943. This month permits have been issued to the value of \$246,800, including a \$174,419 permit issued Wednesday to cover construction of a new city hall.

The Bulletin's SPORT SHOW by Hal Dean

SPORTS EDITOR

And so it's curtains for baseball in Edmonton for the 1946 season. From the standpoint of the game itself, the year now officially closed with the bringing of the major leagues, appears to have been highly successful.

But while nobody seems to be complaining, it is suspected the financial returns for those primarily interested have not been commensurate with the quality of entertainment provided.

Nevertheless, Messrs. Druce and Beatty are justly entitled to be congratulated upon the manner in which they have conducted baseball affairs at Renshaw Park throughout the year. Speaking on behalf of the press, these two gentlemen have been very co-operative and courteous during the entire season. Should they seek to remain in the baseball picture in 1947, this corner would like to extend to them best wishes for greater success.

Baseball School Popular

Close to 100 boys from the city and towns in the Edmonton area were at Renshaw Park Thursday morning for the baseball school conducted by the visiting major league ball players.

The majority of the boys active in the Edmonton junior circuit during the past summer were included among the "pupils" anxious to secure a few tips from the American and National League tourists.

Ally Reynolds, Cleveland Indian, whose fastball in yesterday afternoon's game was a revelation to Renshaw customers, gave the pitching department his special attention along with Dave Keefe, Philadelphia coach. Lou Stringer of the Chicago Cubs bused himself handily out of the line, while "Red" Kress, New York giant coach, spent considerable time giving outfield suggestions, especially in throwing. The entire session lasted about two hours.

To Referee in U.S. Loop

Harry Ornest, who has been named to the referees' roster for Minneapolis to attend the meeting of the circuit, Harry will work out of the Kansas City, Chicago Black Hawks play in Minneapolis on Monday.

Four more players, three forwards and a defenceman, have landed berths with the New York Rangers. Bryan Hestall, Rene Trudel, Al Pike and Bill Moe have signed contracts. Five others are awaiting their signatures to contracts earlier in the week.

"Red" Kress had a lot of fun rubbing his American League friends with the visiting major league party yesterday following the Cardinals by introducing Lou Stringer of the Chicago Cubs at a dinner tendered at the Macdonald hotel, "Red" added, "he's the only ball player I see here."

And as somebody aptly remarked in the press box at Renshaw Park while watching Thursday afternoon's exhibition and just after the result of the World Series game was announced - even Moses couldn't lead the Red Sox out of the wilderness today.

Anderson Heads Edmonton Club

J. Anderson was elected president of the Edmonton League Bowling Club recently at the annual meeting attended by about 30 members who all agreed that the club had enjoyed one of the best seasons in its history.

Other officers elected are: Murray Hamilton, patron; J. McTavish, Dr. Marion, F. Hunter and Dr. M. R. How, honorary presidents; B. Griffith, first vice-president; K. McTavish, second vice-president; H. M. Bergman, secretary-treasurer; E. Ockers, auditor; L. Warren, R. A. Baker, J. Carrell, J. Beveridge, R. Christie, executive members.

Two special committees were formed, one to review the schedule for next season and the other to make a drive for new members.

Goes to Rangers
WINNIPEG, Oct. 11 (CP) - Manager Frank Boucher of the New York Rangers announced today that Jean Paul Landry, Montreal amateur star last season, has signed a contract with the NHL club.

Square Series By Rouncing Red Sox 12-3

By GAYLE TALBOT

HONOLULU, Oct. 11 (AP) -

Bashing six Boston pitchers, or reasonable facsimiles thereof, for a record-equalling total of 20 solid hits, St. Louis Cardinals slugged out a one-sided 12-3 victory over the Red Sox Thursday, deadlocking the world series at two wins apiece.

An amazed crowd of 15,643 loyal Sox boosters who had been given to understand that their own boys packed the heavy artillery, sat for the most part in morose silence as the rampant Red Birds did the record for a fourth straight night.

EVERY MAN IN THE Cardinal lineup, including pitcher George Mauer, joined in the unbridled outburst of binging. Three of them, Eino Slaughter, Wiley Kuroski and Joe Garagiola, tied another record by slugging four safes apiece.

Calm in the midst of the carnage, Mauer, who had been wailing all night with the army of cheering fans, suddenly broke out in a cold sweat.

Sox hitting array down with nine scattered hits and permitted only one out, as he made certain the play-off would return to St. Louis.

One honest tally made out of the big right-hander was knocked over completely from the start.

THE OTHER TWO resulted from Bob Dyer's home run in the second, and Al Pike's single in the fourth.

THE BOSTON would have reached base on a flagrant error by shortstop Marty Marion.

From the mound in the third inning, Mauer pitched a 1-2-3.

ONE JUDGE CALLED the fight even, one gave seven to St. Louis, and the other split it eight to four for the champions.

Except for the early rounds and a brief flurry or two by Castiloux in the final stages, Webb forced the fight, its first three rounds, and staged a desperate rally in the early part of the 11th and 12th, but he tired rapidly.

WEBB, WHO ONCE fought as a preliminary boy when Castiloux was at his peak, forced the fight throughout and for the last five rounds had the former champion hanging on grimly.

Castiloux was a badly tired fighter from the middle of the fight, but Webb finished apparently as fresh as he started, bobbing and weaving about the veteran and forcing him to hang on.

Becomes Lightweight Champ

WEBB BEATS CASTILLOUX IN CANADIAN TITLE BOUT

MONTREAL, Oct. 11 (CP) - Battling out a decisive win over a bruised and tired opponent, Danny Webb, scrappy little Montreal neophyte, lifted the Canadian Lightweight crown from Dave Castiloux, in a 12-round bout at the forum here last night.

Webb weighed in at 133½ and Castiloux at 137½.

WEBB, WHO ONCE fought as a preliminary boy when Castiloux was at his peak, forced the fight throughout and for the last five rounds had the former champion hanging on grimly.

Castiloux was a badly tired fighter from the middle of the fight, but Webb finished apparently as fresh as he started, bobbing and weaving about the veteran and forcing him to hang on.

FRANCE PRESENTS NEW CARS AT FIRST POST-WAR AUTO SHOW

THREE NAZI DEFENDANTS RECEIVE FREEDOM PAPERS IN NUERNBERG

Copyright, 1946, by Acme Newspictures, Inc.

BUDDIES—"Anything but that!" pleads pug-face Peggy, as she was judged the "homeliest dog" in a show sponsored by the Girl Scouts at Hodgen School, St. Louis. Her master, Douglas Riley, who seems to resent classification, tries to console her.

SARAH CHURCHILL, daughter of Winston Churchill, poses for her profile to be photographed as she undergoes tests for movie. She had role of Elena in the Italian movie, "Daniele Cortis."

IN PLACE OF MEAT—These fishermen enter Los Angeles Harbor with Pacific Coast's greatest day's catch of sardines in history. Left to right, displaying the catch are: Ted Hara, Frank Nakano, Skipper George Fukazaki and Bob Uragami of the Nancy Rose.

LOOK OUT BELOW—Its underpinning burned out, this 75-foot water tower, top, crashes into the blazing ruins of three industrial plants in the Wellesley-Newton district in Wellesley, Mass. Damage was estimated at \$450,000.

AUTO SHOW—IN PARIS—The 33rd automobile showing at the Champs Elysees in Paris, France, presented these new European models. It was the first Paris showing of cars since the war. The French automobile industry, long dormant, is beginning to near peacetime production.

OPERATION ATLANTIC CITY—Marines of the 2nd Division from Camp Lejeune, N.C., hit the resort beaches of Atlantic City, N.J., from LCMs during tactical invasion demonstration for the national convention of the U. S. Marine Corps League. Fighter planes, several destroyers, and other Naval craft took part in the mock battle.

IT COULDN'T HAPPEN HERE—Velva Myers, dairy husbandry student at Rutgers University, commemorates the 75th anniversary of the Chicago fire by demonstrating an electric lantern, with a fire extinguisher near by, which would have saved Mrs. O'Leary's barn, and thereby the city of Chicago.

VISITING FIREMAN—Lt. Milton Kenin, left, Fire Department Rescue Squad, Philadelphia, surveys some of the more than 800,000 firemen's badges in the collection of Willie Williams, of San Francisco. Both were attending Fire Prevention Week ceremonies in Philadelphia.

NEW ROLE FOR INGRID—Movie actress Ingrid Bergman pauses on inclined steps from airplane as she arrived at LaGuardia Field, New York, to start rehearsal for her stage appearance in New York City this fall.

GROUND FOR GOOD—Unable to erect a new service station because of shortage of materials, ex-GIs Byron Chedester and J. E. Franks of Ft. Worth, Texas, purchased this surplus cargo plane for \$300, moved it to its present site for another \$100, and converted it into this service station.

PASSPORTS TO FREEDOM—After being acquitted by the International War Crimes Tribunal in Nuernberg, the three former Nazis receive letters certifying freedom from Col. D. C. Andrus, U.S. Army. Left to right, Hans Fritzsche, Col. Andrus, Franz Von Papen and Hjalmar Schacht. Col. Andrus is in charge of the prison where all 21 defendants had been confined during the trial.

CEREMONY IN GREECE—King George of Greece lays a wreath on the Tomb of the Unknown Soldier in Constitution Square, Athens, following return to his throne.

Central and North Alberta News

I.O.D.E. Chapter Plans Activities

VEGREVILLE.—October meeting of the I.O.D.E. chapter of the I.O.D.E. was held at the home of Mrs. A. W. Smith with Mrs. C. H. as assistant hostess.

Plans were prepared for the annual day to be held on Oct. 12. Copies of a play to be presented later this year were ordered and casting and rehearsal will begin as soon as possible.

A paper on Newfoundland was read by the emcee study convener. The November meeting will be held at the home of Mrs. Scott with Mrs. Platten as co-ordinator.

\$80,000 Debenture Issue Is Asked by Vegreville

VEGREVILLE.—Application of the town is before the board of public utilities, commissioners now submitting for \$80,000 for the purpose of making extensions to the water and sewer systems.

Program provided for laying 12,000 feet of 18 inch pipe and 4,000 feet of four inch pipe. It also provides for extending sewer lines to Mount Pleasant subdivision.

At the same meeting of the town council Mrs. Anne Zoszeny was appointed enumerator for making up the voters list.

District Personals

NEW NORWAY.—Mr. and Mrs. Sam Johnson, Mr. and Mrs. Stenlund, visiting at the home of M. D. Johnson, have left to return to their homes in the United States.—Mr. and Mrs. Lachner, along with son Jackie, have been visiting at the home of R. B. Petersen. Mrs. Gouchinour and family from Washington, are visiting at the home of R. B. Petersen. Mrs. Gouchinour is the sister of Mrs. Olson.—Mr. and Mrs. Alvin Olson, Terry and Dennis, of Hines Creek, visited at the home of S. Alkanen.—Rolf Anderson is in Edmonton where he is taking a course in cabinet making.—Mrs. Fred Petersen, has returned from a visit with relatives in Edmonton.—The marriage of Freddie Dillinger and Marie Olson took place in Camrose on Friday, Oct. 4.—Mr. and Mrs. Ron Hillyard and children, of Camrose, visited at the home of Walter Anderson.—Louise Durand, Camrose, is at her home here.—Mr. and Mrs. Walter Anderson, resident in Edmonton recently.—Mr. and Mrs. Hulus Borsell and Sharon, of Kelowna, visited at the home of J. E. Borsell.—Gordon Olson, Camrose, has been visiting at the home of Mrs. G. Olson.—Mr. and Mrs. Tom Ford, Edmonton, spent the weekend at the home of Mrs. Fand, of Calgary, is visiting her sister-in-law, Mrs. R. Bernick.—J. H. Phillips was on duty at his home here.—Doc Lunsberg and Emil Dillinger spent the weekend in Edmonton.

VETERAN.—Jim Rose has been enjoying a visit with his brother, M. Rose, of Chateau, Idaho. This is the first time the two brothers have been together.

For Your Safety...

THE RAILWAYS leave nothing to chance. Signals must not fail. The automatic and sure protection at grade crossings is but one example of the deep concern shown for your safety.

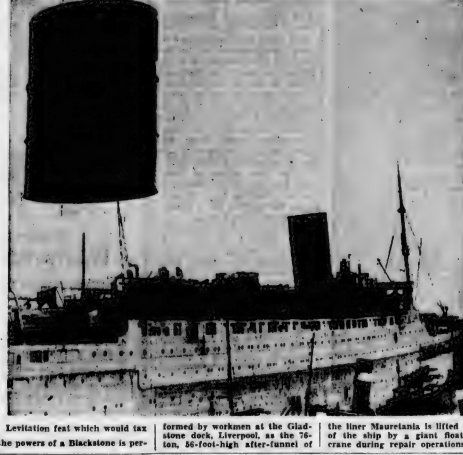

Behind the eternal vigilance of these signals stands the sure and certain performance of Exide Storage Batteries. The railways' exacting specifications demand the best. The fact that they use Exides is proof of the trustworthiness of these batteries.

In your car an Exide will be just as dependable—ready to start your car instantly in any weather—with ample capacity to operate the other electrical equipment on your car.

And—you will find the Exide Dealers ready to serve your needs. They have the necessary experience and modern testing equipment to give you full satisfaction.

Great Liner Is Made Ready for Peacetime Operations

Levitron test which would tax the powers of a Blackstone is performed by workmen at the Gladstone dock, Liverpool, as the 25-ton, 86-foot-high after-lifter of the liner Mauretania is lifted out of the ship by a giant heating crane during peacetime operations.

Two Small Fires Cause Little Loss

VETERAN.—Two fires here were quickly extinguished with small loss, last week.

Fire in the basement of the Memorial Hall was noticed right at the start and put out before any damage was done.

That which broke out in the office of the Alberta Pacific elevator while R. Farrell was outside for a few minutes, brought out a large number of volunteer firemen who soon brought the blaze under control, saving the building with the damage confined to one wall and part of the office roof.

Offer Cash Prizes Red Deer Cadets

RED DEER.—Cash prizes are to be paid winners of the Red Deer Cadets in order to promote efficiency in model ship building, rifle range performance, attendance and general proficiency. It was decided at a recent meeting of the civilian committee held in the Buffalo hotel, special instructions are to be given the leaders in wireless telegraphy, with Stan Cook, an experienced telegrapher in charge of this phase of the boys training.

About 60 boys including the cadets, are and are provided with uniforms, clothing and have a ship the "Admiral Cunningham" which was the former luxurious officers mess at the old 400 Training Camp.

Coronation Board Sponsors Hockey

CORONATION.—Board of trade will sponsor a juvenile hockey team and Bob Peterson will be coach.

The team will play under the rules of the Canadian Amateur Hockey association and will enter a league to be organized in this area. They hope to take part in the playoffs for championships at the end of the hockey season. A supervisory committee will be formed with Clark, chairman; H. Steele, member and secretary; Bob Merchant, manager.

Trade board funds are available president. Other officers are: it is realized that hustle is required to find that hard-to-get money. Players' certificates are in the hands of P. H. Steele and boys must be under 18 years of age as of Nov. 1 to qualify.

Coronation Plans Build Airfield

CORONATION.—At a meeting of the trade board the aviation committee was instructed to interview the town board regarding a survey of land which is thought suitable for a landing strip for planes.

A. E. Rodd and Paul Thomson own land and are agreeable to the survey. They municipal district board of Painsworth, and the Coronation town board will be asked to co-operate in financing the improvement of an air strip, if the survey proves suitable.

The site to be inspected is just a mile south of town. In the early days of firing, barristers used to land and take-off any old place.

Airplane Is Used To Assist Farmer

RED DEER.—Dick Hanson, well-known mechanical agent in Manitoba created some kind of a service record in this part of the country recently when he used an airplane to deliver some parts required by one of his farmer customers.

Mr. Hanson received a hurry-up call from Frank Soderberg, west of Lethbridge, that advice and parts were needed in setting up of a new combine. Dick drove up to the Painsworth airport, chartered one of the Central Alberta Flying club planes and inside of 20 minutes was on the job on the Soderberg farm and soon the combine clicking along nicely.

C. Hall President Duhamel Red Cross

DUHAMEL.—The Junior Red Cross group met at the school last week to reconstitute their affairs for the fall term. Officers were elected, and the president chosen was Clifford Hall. Other officers are: vice-president, Norman Shaker; secretary-treasurer, Lenie Deane; and program chairman is Roger Hutchison.

Clothing Shortage Critical in Europe

MONTREAL. (CP)—Although the work of UNRRA will cease in three months, "the need of assistance for millions of people is as great as ever." Dr. Lotia Hirschmann, executive director of the Canadian committee of Canada, said Wednesday.

Dr. Hirschmann, who recently returned from a trip to Europe where she visited the winter homes of war orphans, said "it is expected that this winter there will be enough food of some sort in most countries, but the severe lack of clothing means that many will freeze to death instead of dying of starvation."

Dr. Hirschmann will leave next week for Vancouver from where she will start a speaking tour of Canada.

B. Noden Is Head Duhamel Students

DUHAMEL.—Students Union of the Duhamel school held their election of officers for the fall term recently. Barbara Noden was elected president, and Irene Skarbo, vice-president for the purchase of equipment, but secretary Marie Wilson and treasurer Verla Hall.

FORTUNE TELLER mistakes her age!

How natural for a fortune teller not to know her own age? This woman was asked to read a grand mother's life! That's because, like thousands of modern men and women, she returns to be "discovered" and doesn't allow her system to become clogged with toxic waste, resulting from too much food, fatty foods, too many medicines, but has escaped the marks of age.

Early in life she discovered people, particularly Bill Beane, "The Doctor Who Wakes up Nature". This means the body is ready for keeping its own health and vitality by stimulating the liver with the Bill Beane's special liver pills in Great Britain, at your drug store or to Ship to London and you'll be able to keep fit, strong and youthful active.

Storm-Tossed Plane Lands Safely In Field

BY J. V. O'NEILL

With both fuel tank indicators pointing nervously toward "empty" following four and a half hours in blizzard-driven icy winds, CTV's T. Jones, local realtor and contractor, thought he was heading for a twin-passenger plane to a 70-mile-an-hour emergency evacuation zone. Instead, he was stuck on the north end of a hummocked-out road, stuck in a traffic jam north of the Edmonton municipal airport.

ONE of the eight-plane goodwill party which left before noon to attend the opening ceremony of the new \$100-million, was accompanied by a *Maclean's* reporter, assistant

where it was decided to return to the Edmonton airport—if the gas held out.

Although an original member of the Edmonton Flying Club and one of the first of its members, Jones had never before experienced the stabled-in-line jumping, the stabled-in-line near the farm home of Paul Verhaegh, the president of the club.

VISIBILITY on the return trip was completely obscured by storm clouds and a blizzard. Jones, the single-engine Cessna was covered by ice while plowing through the 60-to-80-mph blizzard at about 2,500 feet.

Shortly after Jones received a radio call from the Edmonton airport advising that the runway was closed

Old-Time Resident Of City Is Dead

Residents of Edmonton for the last 45 years, Frank Hedlin, 8425 144 street, died in a city hospital Thursday. He was 89 years old.

Mr. HEDLIN came to Edmonton in April 1901, started a Dakota farm for many years he operated a car wash and a garage.

He is survived by his wife, five sons, Arthur, Arrie, B. C. Frank and Fred, and three daughters, Herman, Nellie, and three daughters, Miss Elsie Hedlin, Vernon

Girl's Left Ankles Broken in Mishap

At 10:30 p.m., 2024 104 street, was taken to the General hospital in a Jack Jolly ambulance.

The girl, who was 14 years old, was taken to the hospital after being struck by an auto driven by James Cowley, 12728 65 street, who was driving north on the intersection of 106 avenue and 104 street, Mr. Cowley was driving north on 106 avenue at the time of the accident.

The girl was taken to the hospital and could not see the

The seven other planes, one of which transported Hon. W. A. Fallow, minister of public works, were grounded overnight at Vermilion, where the rain, sleet and snow storm centered heaviest.

Taking off slightly after the ad-

ditional plane, the seven others took him to use the same runway as the plane in taking off, the engine sputtered and died, but fuel tanks empty.

After the plane and its two passengers came to rest undamaged on the stubbled ground, jump-junk, which was in the plane, was found to be empty.

Funeral service will be held at 3:30 p.m. Saturday at Andrew McLaughlin funeral chapel with Dean A. M. Trendell officiating.

KIT.

ance party. Jones was obliged to alter his course due to a swiftly moving air mass that formed in the fringe of which the light plane was tossed about like a leaf in a hurricane.

THE AIR DETOUR kept the shipboard passengers from seeing the plane crash in a miles south of their destination. "I was in the back of the plane," he said. "I was the only one who knew what was going on."

Her spoke, "well I guess it's true that what goes up must eventually come down."

LATER in the evening after reflecting he took off from the stubblefield and brought the little plane down on the runway.

Burial will take place in Edmonton cemetery.

Recent Bride Is Entertained

In honor of her daughter-in-law, Mrs. R. Sinclair, Mrs. R. Sinclair entertained at a post-nuptial reception at her residence, 8 University campus, Tuesday afternoon when more than 100 guests called.

RECEIVING her guests, Mrs. R. D. Sinclair was gown in black and white with a corsage of white roses. Mrs. R. Sinclair was gown in black and white with a corsage of white roses. Mrs. R. Sinclair was gown in black and white with a corsage of white roses.

Autumn shaded chrysanthemums were used throughout the reception room and the tea table was laid with a white embroidered cloth, centered with pink carnations and baby white chrysanthemums, flanked by tall white pillar silver holders.

PRESENTING at the tea were Mrs. D. S. Longman, Mrs. J. Macgregor Smith, Mrs. R. C. Gordon and Mrs. M. E. Lantz. Assisting in serving were Mrs. Bruce Sinclair, Mrs. Bruce Wilson, Mrs. D. L. Luber, the Misses Margaret and

200 Couples Attend Dance

University campus as "Thursday night the annual introduction information held in the dining room of the University campus, Tuesday afternoon when more than 100 guests called.

Family members present were Dr. and Mrs. P. S. Warren, Dr. and Mrs. H. H. Hamill and Mrs. Simpson, Miss Constance MacFarlane, Miss M. D. and Mrs. F. Bodman, and Miss M. D. and Mrs. F. Bodman.

This year's house committee consists of George Molnar, president; members the Misses Lorraine Smith, Mrs. Thompson, Mrs. M. D. and Mrs. F. Bodman, and Mrs. F. Bodman.

Mr. N. Ward, provincial secretary, also visited the assembly and a new member was initiated.

The comb has been used by all people and in every age for dress and hair.

Ladies JC's Hold Dinner

Members of the Ladies Junior Chamber of Commerce held their membership banquet in the Club house on Wednesday evening when guests seated at the head table were Mrs. J. C. and Mrs. J. C.

AFTER the dinner, the meeting was called to order by the president, who introduced members of the executive and 20 new members.

Mrs. Weber, provincial president, gave an account of the provincial convention held in Calgary and explained the provincial and international organization of the club.

Mrs. Hays gave a talk on "Operation" pointing out the importance of a woman's role in the home and community and how she may help in civic affairs.

At the close, the president thanked the speakers and announced that the next meeting will be held in the Red Cross building Oct. 28.

Doreen Torgeson Becomes Bride Of Sgt. Martin Larson, RCAF

Under an arch of pink and white streamers and white bells at the home of Mr. and Mrs. Einar Hjelm, 2605 26th Avenue, Wednesday, Oct. 26, Miss Doreen Torgeson, daughter of Mrs. Mary Torgeson, became the bride of Sgt. Martin Larson, RCAF, son of Mr. and Mrs. Einar Hjelm.

Rings for Men Latest Fashion

TOBACCO, Oct. 11 (CP)—The Canadian girl soon may brand her future spouse with an engagement ring the minute he sits at the altar. The little girl who sits at the altar is the latest fashion in jewelry.

THE LITTLE girl who sits at the altar is the latest fashion in jewelry. The little girl who sits at the altar is the latest fashion in jewelry.

AS FOR the double-ring engagement, jewelry claim the idea originated years ago in Europe and already has become popular in the United States. But they think it will take the average Canadian girl a little longer to become her "conservative" and adopt it.

Men's engagement rings now on sale seldom contain diamonds, but usually are fine silver. Even birthstones have become popular. Most of the rings are suitably engraved inside with the name, date, and occasion.

Often the happy couple will buy the rings together, said one Toronto jeweler. "They usually pay about half as much for the rings she gives him as he pays for hers."

Musical Club To Hold Tea

Mrs. John Campbell Bowen, wife of the lieutenant-governor of Alberta, will preside at the "Autumn Prelude" annual membership meeting of the Women's Musical Club, which will be held in the Empire room of the Hudson's Bay Company store, Tuesday from 2 to 4 p.m.

Autumn leaves and rosin berries will be used for decorations and the table will be centered with copper mums and decorated with contrasting tapers in silver with colored leaves will be scattered over the cloth.

RECEIVING will be Mrs. Frank Craig, president, and Mrs. Frank W. Mills, vice-president.

Presiding at the tea for the first time will be Mrs. Ernest Macdonald and Mrs. Vernon Harford. During the second hour Mrs. Gordon Gray and Mrs. T. Winslow Hamilton will pour.

Serving during the first hour will be Mrs. H. S. Hodgins, Mrs. H. E. Brown, Mrs. Charles Brine, Mrs. M. Dunlop, Mrs. Leonard Dawes and Mrs. H. E. Rawlinson.

During the second hour those serving will be Mrs. William Morrison, Mrs. Walker, Mrs. E. Wershof, Mrs. S. Keeling and Mrs. J. C. Jensen.

MRS. S. D. LAMONTON is a member, secretary, Mrs. A. Chard, secretary, Mrs. A. Bisset, treasurer.

Married at NORWOOD UNITED CHURCH—Mr. and Mrs. Roy Wesley Miller, who were married recently at Norwood United church with the Rev. A. D. Richard officiating.

The bride is the former Miss Mariel Edith King, daughter of Mr. and Mrs. Jack King of Edmonton, and the bridegroom is a son of Mr. and Mrs. W. H. Miller of Vancouver. They are residing in Edmonton.

Mr. Henry Curial New Supervisor

At the Oct. meeting of the board of the Victorian Order of Nurses the appointment of Mrs. Henry Curial as supervisor was announced.

Mrs. Curial has been on the staff as senior nurse for sometime. She succeeded Mrs. Ruth Selthorn who resigned from the post.

September the nurse-in-charge announced that there were 100 new visits to soldiers' families, 50 and total number of visits made during September, 561.

Four pre-natal classes were held with a total attendance of 47, and 12 new members joined the classes in September.

The next meeting of the board will be held Nov. 8 in the library of the Masonic Temple.

Mrs. F. H. Norbury, president presided.

Mr. W. Lamb Is President
Mr. W. Lamb was elected president of the Ladies Royal Canadian Legion, Bowling club, at its annual meeting held this week.

Other officers elected were: first vice-president, Mrs. A. Fushang; second vice-president, Mrs. D. F. B. Wilson; secretary, Mrs. J. C. Wishart; treasurer, Mrs. J. C. Wishart; and Mrs. W. A. Vanshine and Mrs. J. M. Verge.

Prior-winning rinks for the season were played by Mrs. J. E. Edwards and Mrs. J. M. Verge for Junior; Mrs. A. Fushang and Mrs. W. Lamb for Lady; Mrs. H. C. Craigie for Adult; Mrs. A. Fushang and Mrs. Edwards for September.

Club Calendar

Arms, Navy and Air Force Ladies' Auxiliary meeting for Monday has been postponed to Tuesday, Oct. 18, owing to the fact that the club will be held Oct. 18.

Mr. and Mrs. Morley Van Camp will be at home to their friends at 5048 Avenue, Sunday, Oct. 23, from 2 until 6 p.m. on the occasion of their golden wedding anniversary.

Canadian Housewife Finds Bacon is in Short Supply

OTTAWA, Oct. 11 (CP)—The Canadian housewife cooling her heels in a bacon line knows and can move any time to the next counter and buy her ration coupon and wait a week or what-have-you.

The point is that if there occasionally occurs a scarcity in certain lines of meat it's because of difficulties of distribution, not of shortage.

"THE Meat supply in Canada is in pretty good shape," said Dr. L. B. Pett, chief of the nutrition division, National Health and Welfare Department.

In the United States where there is no meat rationing, the queue daily hoping for the least dribble of any kind of meat. A New York dispatch commented on the information there are 3,000,000 American vegetarians who never come near a meat line.

What's more, a vegetarian is born every day but a shortage continues. Vegetarians count for bought in meat eating Canada.

"Bacon is the country meat form the main diet on any menu," said Dr. Pett. "Of course there are vegetarians but they are concentrated in large centres like the United States."

Why are Canadians such meat eaters? Dr. Pett. "It is because at the 'Autumn Prelude,' the party because our climate is harsher than in the United States. To think it's chilly just through habit that we have it as the main course at least once a day."

Nevertheless, despite the fact that the meat supply in Canada is in pretty good shape, the shortage of bacon is a real problem. The shortage of bacon is a real problem.

No British Protest Against Zarubin

LONDON, (Reuters).—The British government will not express a desire to have George Zarubin replaced as Soviet ambassador to Britain, Foreign Undersecretary Duff Cooper said today. Mr. Zarubin, formerly Soviet ambassador to Canada, had no part in them.

The royal commission which investigated espionage activities in Canada reported that the evidence before them was that these members of the Soviet embassy in Ottawa who were engaged in improper and inadvisable activities, operated in special sections of the embassy, the operations of which were quite distinct from the official and legitimate activities of the Soviet embassy, and the Soviet ambassador in Canada.

Suggest Vigorous Immigration Policy

WINNIPEG, (C.P.).—Briefs advocating a vigorous immigration policy and diversification of farm crops were approved Thursday by delegates attending the 17th annual meeting of the Canadian Chamber of Commerce here.

Approval of the briefs, prepared by chamber committees, followed addresses by Prof. W. J. Wilson of the University of Manitoba on immigration; D. O. McKenna, chief commissioner of the board of grain commissioners, on food and agriculture; and Mr. Justice Davis, former high commissioner for Canada in Australia, on international relations.

The brief on immigration said Canada "needs and can support a much greater population and the present opportunity may be the last in which we can freely choose the immigrants who will fill our thinly-populated country."

"Provision will be increased, the standard of living raised and employment expanded if selected immigrants are encouraged to come to Canada to assist our people develop these opportunities," the brief added.

The brief on agriculture stated that the chamber felt the lot of the Canadian farmer could be improved if the trend toward diversification of crops were encouraged and greater emphasis laid on the production of dairy products, meats, fruits and vegetables in the promotion of higher nutritional standards.

Federal and provincial governments were urged to increase the provision for scientific and technical training through agricultural schools and colleges; undertake increased measures for irrigation and conservation; encourage research in the wider use of farm products both for food and industrial purposes; and follow economic and fiscal policies which will maintain employment in industry and agriculture.

Mombasa Talked As British Base

LONDON, (Reuters).—A war office spokesman Wednesday night declined to comment on reports that a British military mission is in East Africa examining the suitability of the area as a British base and headquarters for the Middle East.

Unusually reliable sources confidently believe, however, that Kenya Colony already has been decided on as the base area and that Mombasa, the port for Kenya, is destined to take the place of Alexandria in the new set-up.

These sources say Britain's two main interests in the Middle East are the safeguarding of her imperial communications system and the guarding of her oil interests in Iran and Iraq.

Strategically, with Egypt out of the question, the choice of Kenya as the new base is an obvious one. The Second World War showed how easily the Mediterranean—Suez canal route to the East can be cut out of operation.

Because of that, Britain's supplies for her Red Army and for India and Burma had to go round the Cape. In another way with the increasing efficiency of aircraft and bombs, the Mediterranean—Suez sea route might be cut from the start and the Cape route has no such bottleneck.

Although British garrisons probably would be maintained in Palestine, Cyprus and Malta, it would be easier to maintain forces to defend the oil fields from Mombasa by sea than from Palestine by land.

Legion Is Urging Housing Action

OTTAWA, (C.P.).—The Canadian Legion Thursday asked the government to use its emergency powers to provide immediate temporary housing and warned that delay might result in subversive elements trying to take advantage of the situation.

The Legion's views were outlined in a brief submitted to reconstruction Minister Howe.

The Legion advanced a five-point program to meet housing needs:

1. Use of government emergency powers to make available government buildings and the reconstruction of other available space.
2. Expansion of the building program in the low-income field, particularly during the wartime housing program.
3. Government control of the allocation of supplies, facilitate construction of partially erected houses and eliminate black markets.
4. Rescinding of the order-in-council curtailing operation of the Veterans' Land act by placing restrictions on the acreage required.
5. Provision of a home ownership plan for veterans to apply to wartime housing and other government-sponsored plans.

Jap Officer Tried For Brutal Surgery

TOKYO, (AP).—A former Japanese medical officer Thursday was accused of operating on Allied prisoners of war while under the influence of liquor and of performing surgery although he was qualified only as a physician.

He is Lt. Hiroshi Fuji, formerly of Orin camp, who also was accused in war crimes charges of treating prisoners and converting Red Cross and medical supplies to his own use.

The charges specified that Fuji performed an operation on a screaming soldier without anesthetic, although there was a nurse in the next room, then held up his scalp and exclaimed "This knife has now found American blood."

His alleged victims included Herbert Walker, deceased, Kingston, Que.

These Were Happier Days for Goering

Fat Hermann Goering, sentenced to be hanged for his unbecoming war crimes, is shown here with Hitler in the days when they had it all planned how they were going to rule the world. The Nazi plan failed but not before many millions had been killed and untold property damage inflicted.

Body to Supervise Demilitarization

BERLIN, (AP).—A new Allied body called "combined services directorate" to supervise the demilitarization of Germany will begin functioning Jan. 1, 1947, Gen. Joseph T. McNarney announced Wednesday.

The directorate will be responsible for keeping a strict watch on all questions affecting the liquidation and position regarding of German war potential and for reporting any tendencies which might lead to a revival of German military aims.

POSTED TO WASHINGTON

LONDON, (Reuters).—The war office announced Wednesday that Lt.-Gen. Sir William Morgan, supreme Allied commander in the Pacific, will replace Field Marshal Viscount Wilson, early in 1947 as commander of the British army staff in Washington and army member of the joint staff mission.

SERVICESMAN SAIL

SOUTHAMPTON, (C.P.).—The Aquitania's last voyage as a troopship began Tuesday when she left for Halifax with 2,000 passengers, including 140 Canadian servicemen, 700 dependents and 800 commercial passengers.

Rap End Of Milk Subsidies While Steel Grant Still Paid

By John Hirs

OTTAWA. — Ottawa officials are being-bombarded with questions as to why the government proposed to end subsidies on milk and steel production at Sydney, while both consumer and producer subsidies on milk are dropped, with consequent rises in the price of milk to every household. Something like an issue appears to be shaping up as the price time when a critical objection to being bought at Perdue La Prairie, while another objection is in progress at Toronto Parkdale.

During the war, government subsidies paid to Doole on its steel plant operations at Sydney were: 1941, \$1,100,000; 1942, \$1,234,000; 1943, \$6,672,000; 1944, \$5,623,000; 1945, \$2,068,000.

That makes nearly \$24,000,000. Nobody can guess closely what subsidy will be necessary to keep Doole going under the new higher wage rates until the plant gets back into production. But, obviously, the amount is likely to be high.

Steel Viciously Needed

Official explanation of the apparent anomaly in the steel-versus-milk subsidy question is contained as follows: Steel production is vitally necessary for the reconstruction program. The government, therefore, sees three alternatives, therefore, it may set a steel price so high that Doole can make money in the domestic market, while its rivals in the United States must profit. Alternatively, it may set a steel price which it considers fair and economic for the major part of Canadian steel production—Hamilton is far the most important, with St. Catharines and Sarnia. The government, therefore, sees three alternatives, therefore, it may set a steel price so high that Doole can make money in the domestic market, while its rivals in the United States must profit. Alternatively, it may set a steel price which it considers fair and economic for the major part of Canadian steel production—Hamilton is far the most important, with St. Catharines and Sarnia.

Ultimately, of course, the question arises as to whether it is economic to keep the Sydney plant going at all, by means of subsidies. Two considerations enter here, at least temporarily.

First is the acute shortage of steel, and second, the fact that Doole, by government order, is confined to producing for the domestic Canadian market and is prevented from concentrating largely upon

Plant Supports Thousands

Until Doole gets back to a paying basis, which it should when exports are fully resumed, the government has to face the fact that a whole Nova Scotia community depends for livelihood upon Doole employment. This includes not merely more than 4,000 steel workers but also more than 10,000 miners, since Nova Scotia coal is used largely to make steel.

Officials here point out a rise of \$5 a ton in steel this spring was followed by some increase in farm implement prices. Though these increased prices were only paid occasionally by the new steel price, they say a further \$5 a ton increase would play too with farm machinery prices.

Reason given by the government for dropping the producers' milk subsidy, costing approximately \$14,000,000 annually, was that its retention would not hold down the price of milk. Dominion officials point to the fact that in Ontario the producer is now receiving three cents a quart more, whereas the subsidy was 1½ cents, giving him

a net increase of 1½ cents. Some similar situations exist in other provinces, indicating producers would not have been content to maintain prices even if the 1½-cent producers' subsidy had been continued.

LADY NELSON DOCKED

HALIFAX, (C.P.).—The liner Lady Nelson docked here Thursday bringing 337 wives and 100 children of Canadian servicemen from Belgium, France and the Netherlands.

Travel Will Be Fun Again via Canadian Pacific

Remember how pleasant it used to be to travel on Canadian Pacific ships! Remember the cuisine, the courteous service, the fun of shipboard life... and the ships themselves! Just now there's a big job to do repairing the wear and tear of wartime voyages—replacing lost ships... but, when it's done, travel will be fun again—the Canadian Pacific way!

Soon a new, two ocean fleet will plow the sea routes of the world... and once again it will be possible to go from Shanghai to Southampton—Canadian Pacific all the way!

Canadian Pacific

SPANS THE WORLD

Free Employment Services Under Australian Scheme

CANTBERRA, Australia, (CP)—Warlike manpower controls have been repealed in Australia. They were introduced soon after the beginning of the Pacific war under the federal government's emergency powers and were sweeping in power, affecting every man and woman in Australia. Manpower directives were established in every state under federal government direction. They had power to prevent any person from leaving or entering in any part of the country, and to direct any civilian to engage in any specific employment.

The machinery which the directorates built up is being used as the basis for a community employment service modeled on the British and U.S. employment services. The service is a community government department, and is new to Australia.

Its establishment is one of the aims designed to give effect to the government's international and domestic commitments to achieve and maintain conditions of full employment.

Main function of the department is to provide free service for employers in obtaining the type of labor needed, and for workers to obtain the type of employment suited to their qualifications.

It will help ex-servicemen, particularly, to find the employment best suited to them, and provide a general advice and information service.

The department has offices in all capital cities and suburbs and in larger provincial centers. It has all modern facilities for job placement, including vocational guidance officers, career advisors, telephones, and the issue of daily "job bulletins."

WANT MORE WORKERS

Some 20,000 Mexican agricultural laborers probably will be recruited for work in the United States this season, despite earlier advice that none would go north, Mexico City reports. United States interests were reported to have wanted 120,000 "braceros" but to have settled for the smaller number.

Have you made up your mind?

LET'S GO OVER THE TOP!

DEMOCRACY BEGINS WITH YOUR NEIGHBORS. PEACE BEGINS AT HOME.

We appreciate the thought and consideration many people are showing toward their Community Chest donation. But too often, canvassers have been asked to "call back" when a decision has been made. If you are ready now for the canvasser - a call to Community Chest headquarters will bring one. Make up your mind that you will be a good neighbor - that you'll DOUBLE your donation to the Community Chest!

The Community Chest of Edmonton
McLeod Bldg. Phone 2766

"I got your AIR MAIL letters"...

WHAT did those letters say? What does AIR MAIL always say?

It says you are writing to someone you regard as most important . . . to someone with whom you are eager to talk.

When you write to friends who are far away — isn't it natural they will feel a thrill on seeing the familiar AIR MAIL markings?

For popularity in friendship, or business, you can never be wrong in writing AIR MAIL.

U.S. Airmen Break World's Non-Stop Flight Record

The four navy men who flew the "Fleetwings" a Lockheed PV-1 Ventura, a world record on an 11,000-mile non-stop flight from an airport outside Perth, Australia, to Port Co.

Jacksonville, Fla., Commander Walter

U.S. Submarines In Arctic Cruise

WASHINGTON, (AP)—The navy Thursday issued a belated account of a three-day submarine cruise in the North Pole this year.

Anti-submarine detection beams are continually directed by layers of seawater which vary with temperature and the navy much information on the effect was obtained from the Arctic ice.

Operating with four submarines of the Pacific fleet were an undisclosed number of long-range four-engine patrol bombers.

The submarine, Trumphet, Black, Duke and Dorian, were blocked by the solid wall of the ice on their northward course beyond the Bering straits at 59 degrees 21 minutes north, some 200 miles southwest of Point Barrow, Alaska.

Bishop of Cape Town Deplores Color Bar

CAPE TOWN—H. H. W. L. van der Merwe, bishop of Cape Town, made a strong attack on the "color bar" when he spoke at the synod of the church.

Thoughtful men and women were puzzled and distressed at the political contrast between racial prejudices and color bars in South Africa, and the repeated claims of responsible statesmen and other leaders that there must be full freedom for all peoples without discrimination on racial grounds, he said.

"The truth was that in this country the people had fallen under the curse of a dual conscience, and they had two standards of judging men. What mattered was not a man's worth, ability, integrity or ambition, but the color of his skin."

Remarkable Results

Equally remarkable results were obtained by using this same fraction of blood to vaccinate against epidemic hepatitis, a new and serious liver infection.

It is apparent, he said, "that here in blood we have a group of agents highly valuable in the treatment of many types of disease. They were proved during the war by thousands of doctors, under every kind of climate. Why can't we get blood supplies for peacetime?"

He used strongly a peacetime blood-donation system possibly to be directed by the Red Cross, with blood donated without cost, processed by the largest and most experienced laboratories, and distributed without cost through regional health departments.

South Africa Will Try Boost Trade

CAPE TOWN, (CP)—South Africa is taking steps to develop her foreign trade and to attract trade with other countries. Economic Development Minister, F. Watson said in the senate recently.

Mr. Watson said that free international trade channels would mean that gold would be more likely to maintain its position. South Africa agreed that full employment was essential to world peace and therefore was vitally interested in the betterment of world trade.

United States trade proposals were obviously directed against the Ottawa agreement and Imperial preference. Mr. Watson said South Africa was ready to cooperate, but she could not do so until she was certain that no discrimination against her goods was being made by the Ottawa agreement.

United States trade proposals were obviously directed against the Ottawa agreement and Imperial preference. Mr. Watson said South Africa was ready to cooperate, but she could not do so until she was certain that no discrimination against her goods was being made by the Ottawa agreement.

Say Japs Planned Attack on Siberia

TOKYO, (AP)—Emperor Hirohito personally announced a plan of the Japanese general staff in 1941 to attack Russia, a dispatch writer now in Moscow without doubt by "Saturday" in the international war crisis. The dispatch from Lt. Gen. Koki Yoshimura gave details of Japan's plan to attack Siberia east of Khabarovsk.

U.S. Submarines In Arctic Cruise

Ancient Ships To Davy Jones

AUCKLAND, N.Z., (CP)—A 100-year-old French frigate, the *Thetis*, and an 80-year-old two-masted schooner, have recently been towed from their moorings in Auckland harbor and broken up.

Both vessels, well-known ships in the city, they had been lying for years in "rotten hulk," where disrepair had been so great that dismantling. They had been refused to the hazy lands of a hulk.

Toronto Hospitals To Increase Rates

TORONTO, (CP)—Increased rates, ranging from 50 cents to \$1 a day in the 10 hospitals in the Toronto Metropolitan area will go into effect Oct. 15, it was announced Wednesday by the Toronto Hospital Council. The increased rates are being put into effect due to rising costs.

Wage increases of \$8 to \$12 a month for women and \$12 to \$18 for men, have been granted the service and nursing staff of the Toronto General Hospital.

Province's Fleet Gets Third Plane

REGINA, (CP)—Reserves Minister, Philip, said that at facilities for the province's fleet in the northern half of Saskatchewan were expanding rapidly with a third Norovian aircraft expected to be delivered at Prince Albert Wednesday. The department has also several smaller aircraft at its disposal for the province.

Why Grow Old?

Today Actress Joan Winfield is reaping (casually) with your feet higher than her by resting on head.

BY JOSEPHINE LOWMAN

Q. "The idea of lying down with one's feet higher than one's head seems overdone and a little silly in this." There really any value in this?

A. There is a difference of opinion as to whether or not this practice is of any benefit in filling out facial contour. The theory is that the increased flow of blood to the head does so. However it is a doubtful position and relieves internal organs of strain. Some people also find it valuable in overcoming sinus trouble and relieving the strain of varicose veins. I think it is a good habit.

Q. "PLEASE TELL me what to do for the following flukes. How can I make my lips look thinner, and my eyes larger? My face is also very thin and I have so much candor."

A. Pull the line of your lipstick in a little when applying lip rouge. A very little difference makes a big change in appearance. Use mascara on your eye lashes and apply it heavier at the outer corners. Also groom and shape your brows and darken them if they require it. Apply your rouge toward the outer edge of your face. Never place it close to your nose. You should see a skin specialist about the candor.

Q. "I have dandruff. I have cut my hair almost off in the hope that it will get rid of the dandruff. Is this correct?"

A. No. Cutting your hair will have no effect on the dandruff. It is a diseased condition of the scalp and requires special treatment.

Q. "CAN A WOMAN of thirty improve her bustline? I am five feet, three inches tall and weigh 103 pounds."

A. Yes. A gain in weight would help a lot and you will have to build up the contour of your chest muscles.

Q. "I am 29, have children and am still nice and slim. My stomach is as smooth as it ever was but the skin on my thighs has little white lines. Is there anything to help or prevent this?"

A. This condition is usually a result of pregnancy or over-weight. Sorry but I do not know of any way to overcome it. For prevention, remain the correct weight and avoid fatty deposits if you should have another child.

Q. "Kindly tell me how I can gain weight on my arms?"

A. Of course a general gain in pounds will help. You should also build up contour by firming and increasing the arm muscles. Most of the fat clinging and elbow bending exercises do this. If you wish to have them send a stamped self-addressed envelope with this request for leaflet No. 15 "Armful."

"Now please don't embarrass me by telling the bus driver how you always kept on schedule when you had this run!"

OUR BOARDING HOUSE

by Gene Harris

Dorothy Dix Says —

Dear Miss Dix: My daughter is 19 and has a very fine education. But she insists upon doing a man's job, instead of being a secretary, or school teacher, or something like that. The fact is that she has strong mechanical talent and can fix anything about the house or the car that goes wrong. But I am disappointed because she will not take up some kind of work that will be helpful to her in the future. PUEZZLED MOTHER

Answer: When children show definite ability in any line, their parents make a terrible mistake when they do not let them follow their natural bent. It is like putting out the fire on the altar when you do not let them do the things that nature intended them to do and so not let them become the most happy and successful. Most of the failures in the world are the men and women who were square pegs that their misguided families tried to force into round holes, where they never could be made to fit.

A. Not the large pores, but plastic surgery can do wonders to the crown's feet. Don't snuff, and use eye cream about the eyes at night, massaging along the lines. Also beware of facial grimaces which deepen the lines.

Cut for a Cut-up!

Dear Miss Dix: I am the father of three children, who are in my care, as I am divorced from their mother. My wife says she loves me, but she seems to be afraid of the children. I don't wonder at that. I know that a girl is taking a big chance who marries a man with children. What should we do?

P.C.

Answer: It depends upon how old and mature the girl is, and most of all, upon how much sense she has. I take a lot of intelligence and common sense to deal with even one's own children where there is the bond of mother love to compensate for all the trouble youngsters give, and I'm afraid no young girl is that.

YOUR POSITION forces you to be more careful in selecting a wife than you would be if you did not have any children.

Dear Dorothy Dix: The boy I got with told me that I was not a girl to take seriously. What does that mean?

B.C.

Answer: Well, it might mean either one of two things. One is that he thinks you are one of those girls who is frivolous and just in for a good time and who has no real purpose in life, except to amuse herself.

The other meaning may be that he is a jay, serving notice on you that he is having a good time dancing around with you, and that his intentions are without any intention.

A new method has been perfected to degum cottonseed and produce an almost white meal.

Cultivation of the soybean was first recorded in China in the third century B.C.

"By the way, do you still work for Mr. Hoopdelink?"

OUT OUR WAY

by J. R. Williams

Believe It or Not! by RIPLEY

Elizabeth Woodward Says —

Dear Elizabeth Woodward: very unhappy before she met me. There were 112 pairs in a one session contest, the high percentage pair of the field winning.

This year it went to Mrs. Jeff Glick of Miami, Fla., and Miss Virginia of Brooklyn, N.Y. They had a 70 per cent game to win the event. Mrs. Glick won the national mixed pair championship a few years ago with her husband, Jeff Glick, who is a Life Master.

Mrs. Glick is apt to trip her opponents up with a tricky play, as she did with today's hand. Her ten of diamonds won the opening lead, and the six of spades was played. Declarer followed the lead, and Mrs. Glick (South) won with the queen.

Now she made her tricky play. She led the queen of clubs, and while declarer's proper play might have been to cover with dummy's jack, he made the mistake of playing low.

Mrs. Glick then led the king of diamonds to split Mrs. Glick's queen. Her partner trumped with the right of spades, and declarer's club, Mrs. Glick won and played a small amount. Mrs. Glick won and played a small amount. Mrs. Glick won and played a small amount.

Many an expert has fallen for the play of the queen from the declarer. It will not work often, but when it does, it is a lot of fun.

Your Baby And Mine

BY WYLLIE NEVER GLORED
If you're hard hard to see why children eat at the family table may display a stubborn indifference to food. Fasting with the parents may be a very drying experience. The whole idea of a meal is so much he has to learn; not to sprawl all over the table, not to wriggle or get down from his chair. No one takes into account that children do not enjoy inactivity and may be a very restless individual to the adults may be a time of tiring frustration to the smallest member of family.

If he sits his food or pushes from the table away from the chair, he is subject to reprimand. "How silly to do that," says mother sternly. "All the food goodness is in the same stomach, so why push then apart before you eat them?"

However, children may be unable to eat foods mixed with other foods, when each food alone would be acceptable to them. A blue-plate with divisions will solve this problem without losing an ounce of food. Children aren't able to explain why they don't like vegetables, running into potatoes, they just don't.

Having the child at the table makes it easy for daddy to get in his day's criticisms and discipline. If the child has exhibited any bad habits, or been guilty of any misbehavior, now is the time they are afraid.

I know how badly Daddy is going to feel when he knows what his appetite is scurrying away. While he sits at the table, he is nagged with remorse or anticipates punishment?

Manners are apt to get too much emphasis at the table with too great a tendency to scold the child when he shovels food into his mouth, puts fingers into his mouth or takes gigantic bites. The chief concern should be that the child eats his food with development, the don't-to-do good as well as bad manners.

In fact, one has to expect that a one session contest, the high percentage pair of the field winning.

This year it went to Mrs. Jeff Glick of Miami, Fla., and Miss Virginia of Brooklyn, N.Y. They had a 70 per cent game to win the event. Mrs. Glick won the national mixed pair championship a few years ago with her husband, Jeff Glick, who is a Life Master.
